GOFUMIG8

- The GoFumig8 platform provides a 100% digital platform for licensed treatment providers to prepare and lodge treatment paperwork to the Australian Government, Department of Agriculture Water and the Environment. This platform allows Fumigation Companies to better manage their fumigation business in an efficient, compliant and completely electronic way.
- My role was playing an Important role for this project also It was the biggest challenge for me to handle this project I had designed the entire Application and Website for the different consumers like Logistics, Broker, User, etc. in Adobe XD and Flutter.

MYCARE CENTRE

- MyCare Centre Project is a platform where User/Customer can hire Workers for their household works like Baby Care, Cleaning, Dancing, Beauty Care, etc.
- Project has 3 different parts, Worker, User, & Provider.
- Provider will work as a middle man for the User and Worker. Provider will assign a job to Worker for User's requirement.
- This project was quite interesting for me and my role was most important in this project as I am only the UI Design in my company, I had to design the entire Application and Website for the different consumers like Provider, Non NDIS, NDIS, & Worker etc. in Adobe XD and Flutter.

NETSPIRIT NET BALL

- Mission of NetSpirit Net Ball was to Inspire, Educate, Empower & Build Confidence with every player/coach.
- I have designed this entire Application in Adobe XD and in Flutter. I was very happy when this project got completed because our clients were much happy with the design.

DL CONNECT

- App Store Link : <https://apps.apple.com/au/app/dl-connect/id1582114783>.
- Play Store Link : <https://play.google.com/store/apps/details?id=com.ethink.dlconnect>
- Designer Life provides training and employment programs throughout Queensland. The DL Connect app is quick and easy way to engage with your course and communicate with Designer Life.
- I have designed this entire Application in Adobe XD and in Flutter also it is published in both App Store and Play Store.

FUNDAZE

- Fun Daze is a new business that teaches people how to roller skate, focusing on the progressive freestyle discipline. With the feeling of freedom from the Seventies we merge the explosive modern X factor into our freestyle park skating.
- I have designed this entire Application in Adobe XD.

WALLY PROJECT

- Wally Project is to Improve your site as per WCAG guidelines, the main aim of The WCAG documents is how to make web content more accessible to people with disabilities. Web "content" generally refers to the information in a web page or web application, including: 1) Natural information such as text, images, and sounds. 2) Code or markup that defines structure, presentation, etc.
- I have designed this as per the Client's requirement in Adobe XD.

FS SHOPPIFY

- FS Shopify is a commerce platform that allows anyone to set up an online store and sell their products. Merchants can also sell their products.
- I have designed this Project for Web and Mobile Application in Adobe XD.

RYDEWEY FOOD DELIVER APP

- Rydewey Food App is a platform that connects customers, restaurant partners and delivery partners, serving their multiple needs. Customers use our platform to search and discover restaurants, read and write customer generated reviews and view and upload photos, order food delivery, and make payments. However, on second hand, we provide restaurant partners with industry-specific marketing tools which enable them to engage and acquire customers to grow their business while also providing a reliable and efficient last mile delivery service. Lastly delivery partners will collect the food from restaurants and will deliver the order to customers doorstep. Main goal on Rydewey App is to delivery quality & fresh food to customers.

SAMA MARCHÉ

- Case Study <https://www.behance.net/gallery/133907523/SamaMarche>
- Amin of SamaMarche is to help people buy and sell cars, find old mobiles, buy and sell household goods, and much more. Meaning of SamaMarche is "MyShop". In SamaMarche user/customer can find/post and items like mobile, cloths and many other things.

SAMA TAXI

- The Sama Taxi App offers mobility solutions by connecting customers to drivers and a wide range of vehicles across taxis, and cabs. Amin is to launch this App in Africa were peoples can travel from 1 place to another in less fee.

FITNESS GYM

- Case Study <https://www.behance.net/gallery/128030605/Gym-App-Case-Study>
- Fitness App is a health and fitness platform that aids our user to achieve their true physical and mental potential. This app started with the vision to help people transform themselves by giving them access to content and programs that work on aspects of mind, body and recovery.
- Vision of this app is that transformation does not need to be about setting unrealistic goals or killing oneself in the gym. We believe in a more structured, incremental and scientific approach to tap into our true potential. We believe this is not just about how the world perceives us but more about a way of life we believe in.

SPLITEQUAL

- Case Study <https://www.behance.net/gallery/128545265/SplitEqual-Case-Study>.
- SplitEqual is the easiest way to share expenses with friends and family and stop stressing about "who owes who". Our mission is to reduce the stress and awkwardness that money places on our most important relationships.

XTRASHEET

- Xtrasheet uses data science, machine learning and artificial intelligence to improve your performance in exam. One can create unlimited practice test and analyse where he stands.
- Mission of the App was to make one Assessment Portal were any Students can take any Exam and can prepare the test in advance, Aslo they can create test and can attain the test when ever they want.
